

INDIVIDUAL EMERGENCY PREPAREDNESS & EVACUATION

**HOW TO GET
READY
STAY INFORMED
EVACUATE
RECOVER**

To assemble your kit, store items in airtight plastic bags and put your entire disaster supplies kit in one or two easy-to-carry containers such as plastic bins or a duffel bag. A basic emergency supply kit could include the following recommended items:

Emergency & Evacuation Planning Form

PRIORITY LIST FOR EMERGENCIES

- 1. Take the first available evacuation transportation offered to you (family, friends, neighbors, Police, Fire, Ambulance or other officials.)**
- 2. Call 911 for evacuation if you do not have transportation of any kind.**

Recommended Emergency Links

Police, Fire, Medical: Dial 911

Community Warning System: <https://cwsalerts.com/>

People with medical disabilities or transportation needs are encouraged to register with their local Police Department, through the Community Warning System. You will be asked to keep your information current and to update it annually. Personal information will be kept confidential in accordance with state and federal law and data will only be used by emergency personnel during preparedness planning and evacuations.

Please contact your local Police Department to register for evacuation services within your municipality.

Basic Disaster Supplies Kit

A disaster supplies kit is a collection of basic items your household may need in the event of an emergency. After an emergency, you may need to survive on your own for several days. Being prepared means having your own food, water and other supplies to last for at least 72 hours. Make sure your emergency kit is stocked with the items on the checklist. Most of the items are inexpensive and easy to find, and any one of them could save your life. Keep this kit in a designated place and have it ready in case you have to leave your home quickly. Make sure all family members know where the kit is kept.

Maintaining Your Kit

After assembling your kit remember to maintain it so it's ready when needed:

- Keep canned food in a cool, dry place
- Store boxed food in tightly closed plastic or metal containers
- Replace expired items as needed
- Re-think your needs every year and update your kit as your family's needs change.
